## CORPO COLLECTION

Akrapovič has taken its experience from designing high-end exhaust systems into the apparel world with the launch of its all-new Akrapovič Corpo collection.

It is designed using the traditional Akrapovič colours of black and red, with a subtle graphic on the chest – featuring common element, which is included throughout the collection – providing minimal branding, as used on many of the company's exhausts and carbon-fibre accessories, to create a premium feel for this new corporate clothing line.

Akrapovič launched its new clothing range in spring, and to add to the collection four more high-quality items are available in July this year.

The Akrapovič Corpo Collection already features a T-shirt, zippered hoodie, rain jacket, and softshell jacket. Now to complement the range there will be a knit rich piqué polo shirt in both red and black, a turtleneck zip with antipilling fabric, and a light, packable, breathable windbreaker. All items are made from the highest-quality materials and with the same attention to detail that Akrapovič puts into its exhaust systems and carbon-fibre accessories.

All clothing in the Akrapovič Corpo Collection is separately tailored to fit men and women and comes in sizes XS to XXXL for men and XS to XXL for women.
